2nd Vienna Breast Surgery Day

Throughout the last century, oncoplastic surgery has evolved substantially and spread globally. These developments have vastly improved cosmetic results following both breast-conserving surgery as well as mastectomy. In addition, we also have a better grasp of the advantages and disadvantages of each particular method, as well as a deepened understanding of when each surgical method should be employed. The 2nd Vienna Breast Surgery Day (VBSD) provides a summary of the state of the art of current surgical methods and future directions, as presented by leading experts in the field.

The armamentarium for oncoplastic surgery is developing at a rapid pace. In fact, multiple techniques may even be utilized for the same case. The final decision is ultimately based on the surgeon's experience, the location of the tumor, the size of the breast, and the patient's co-morbidities. At the 1st Vienna Breast Surgery Day in 2012, we invited you to take part in observing live surgery. This year, we will present interesting and exceptional cases on video, which we will then discuss together.

We invite you to present your case as well on video. Please send us your video by February 20, 2015. Videos should not be longer than 8 minutes and should include the following:

- A frontal picture of the patient before surgery
- A diagnostic appraisal (radiology pictures, histology, patient demographics)
- A preoperative drawing
- Important operative steps
- Initial results immediately following surgery
- Long term results from the case presented or from other cases where the same technique was used

(Please send a USB stick together with your description to Florian Fitzal, Chirurgie 4a, Brustzentrum Linz, KH Barmherzige Schwestern, Seilerstätte 4, 4020 Linz, Austria, Europe)

Best Video Prize

At the end of the 2nd Vienna Breast Surgery Day, the audience will determine the best video via televoting. The winner will receive the VBSD Video Award.

We look forward to seeing you in Vienna.

Florian Fitzal

Michael Gnant

Registration

units@ccc.ac.at

Space is limited to 100 participants and therefore registration is required. Please note that registration is only valid after the conference fees have been received.

Congress fee: 200 Euro

Invitation

2nd Vienna Breast Surgery Day

March 17th, 2015

Medical University of Vienna, Jugendstilhōrsaal, Spitalgasse 23, 1090 Vienna, Austria

www.ccc.ac.at

Programme

8:00 a.m.

Admission

8:15 – 9:00 a.m.

Registration and Breakfast

9:00 – 10:30 a.m.

Session 1

Chair: Michael Gnant, MedUni Wien, Austria

Welcome address

Christoph Zielinski, MedUni Wien, Austria

Introduction

Florian Fitzal, MedUni Wien, Austria

Video #1, discussion

Video #2 or case, discussion

Complications and solving strategies in OPS

Peter Schrenk, General Hospital of Linz (AKH Linz), Austria

Video #3, discussion

Video #4 or case, discussion

10:30 – 11:00 a.m.

Coffee break

11:00 a.m. – 12:45 p.m.

Session 2

Chair: Peter Schrenk, General Hospital of Linz (AKH Linz), Austria

DCIS: a critical review from the pathologist

Farid Moinfar, Hospital of the Sisters of Charity Linz, Austria

Case

DCIS and radiotherapy: still for all?

Gerd Fastner, Paracelsus Medical University, Salzburg, Austria

Video #5, discussion

Surgical Treatment of BRCA mutated patients

Viviana Galimberti, European Institute of Oncology, Milan, Italy

Video #6, discussion

Can we omit radiotherapy in invasive breast cancer?

Boon H. Chua, Peter MacCallum Cancer Centre, Australia

12:45 – 2:00 p.m.

Lunch break

2:00 – 2:30 p.m.

Keynote Lecture

Chair: Raimund Jakesz, MedUni Wien, Austria

Multigenomic tests for tailoring local therapy: ready for prime time?

Monica Morrow, Memorial Sloan-Kettering Cancer Center in Manhattan, New York, USA

2:30 – 3:00 p.m.

Coffee break

3:00 – 5:05 p.m.

Session 3

Chair: Michael Knauer, Kantonsspital St. Gallen, Switzerland and Peter Dubsy, MedUni Wien, Austria

Objective symmetry measurements with the BAT® software

Wilfried Krois, MedUni Wien, Austria

Interim Analyses of the prospective oncoplastic trial: iTOP

Florian Fitzal, MedUni Wien, Austria

Early versus late reconstruction after mastectomy

Klaus Schrögendorfer, MedUni Wien, Austria

Video #7, discussion

Are Breast Implants carcinogenous?

Lukas Kenner, MedUni Wien, Austria

Two stage and DTI approach with Polyurethane implants: results with and without RT

Stefano Pompei, S. Pertini Hospital, Rome, Italy

Video #8, discussion

Vote the best video
